**Product Name: Set Square**

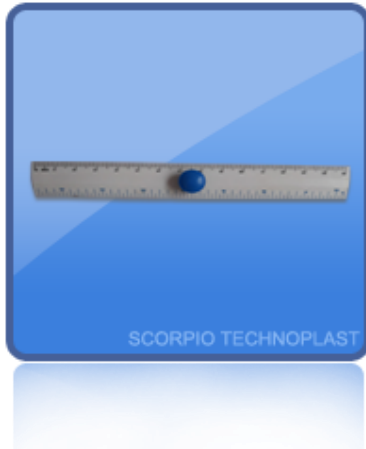

**Product Name: Compass**

**Product Name: Divider**

**Product Name: Protector**

**Product Name: Scale**

**Product Name: Set Angle**

**Product Name: Duster**

## **ROLL UP BLACK BOARD**

A blackboard or chalkboard is a reusable writing surface on which text or drawings are made with sticks of calcium sulphate or calcium carbonate, known, when used for this purpose, as chalk.

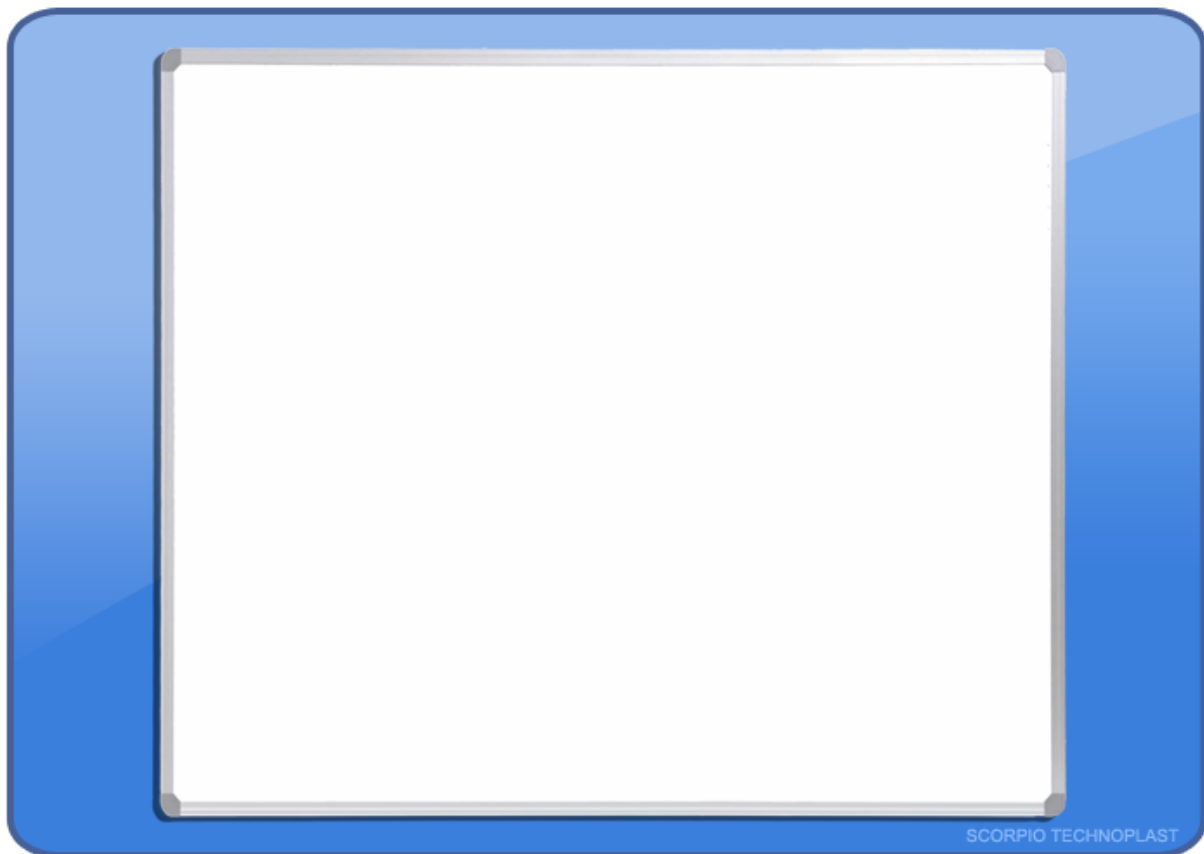

Blackboards were originally made of smooth, thin sheets of black or dark grey slate stone.

**Product Code: SB-301**

## **WHITE BOARD**

A whiteboard is a non-electronic variation of the traditional “rewriteable” schoolroom blackboard, but is white instead of black and of a material that can be written on with colored markers (known as dry erase markers). Dry erase markers are easier to erase than the chalk used on a blackboard (which sometimes requires a wet rag for thorough erasing).

**Product Code: WB-402**
